Swedish Americas Cup Challenge, Wednesday 16 Aug 10.00-17.00

On Wednesday the 16th the Swedish Americas cup team, Swedish Challenge powered by Artemis technologies, are visiting KSSS and invites all sailors who are sailing the 29er Europeans to try out their foiling Waszp boats and AC40 simulator.

You will probably never experience sailing this fast without getting wet ever again. So do not miss out on this exciting chance to fly in 40 knots with an AC40 in a computer simulator! And if you are up to the challenge, you can get out on the water and try the foiling Waszp.

They will be outside the KSSS club house from 10.00 to 17.00 for you to try the fast and foiling AC40 boats in the simulator and the foiling wasp boats.

Welcome!

Mid-week Social Evening Wednesday 16 Aug 18.00

When Saltsjöbaden was built in the 1890s the idea was to create an exclusive villa and bathing resort on the Baltic coast near Stockholm. The town's most famous building, the Grand Hotel Saltsjöbaden, was completed in 1893. A bathing resort need a classic cold bath and the first one was built at the end of the 19th century. The current men's and women's bath was completed around 1925 and has been used continuously since then.

On August 16 at 18:00, we welcome you as participants, coaches and officials to our mid-week Social Evening at the 29er Europeans at the cold bath house. The evening begins with us serving traditional national dish, Swedish meatballs with mashed potatoes and lingonberries.

As we are in a cold bath house there are great opportunities for us to swim in the Baltic Sea at this wonderful venue. Therefore, we highly recommend you bring your swimwear this evening. You can also use the famous jumping tower if you dare. The highest level is 12 meters high and has been used several times for the event "The Death Jump" and during the evening we will get instructions on how you can jump in a safe (and spectacular way) from one of the professionals that will actually compete in the DØDS Diving World Tour Stockholm from the same tower on the 19 of August.
